Product Designer focused on onboarding, growth, and scalable digital experiences across SaaS and emerging technology.

EXPERIENCE

Hey Jack — Product Designer

Mar 2026 – Present | Remote

- Optimized product navigation and user flows to improve discoverability, usability, and overall customer experience across key journeys
- Redesigned checkout experience and core product pages, improving conversion-focused interactions, accessibility, and responsive design consistency.
- Designed and maintained brand assets including brand book, visual guidelines, and Battle Brief documentation to strengthen product and brand alignment.
- Delivered scalable UI solutions across the platform by improving design consistency, component usage, and responsive experiences across web interfaces.

Wandar — Product Designer

Jun 2025 – Jan 2026

- Led end-to-end design of onboarding and booking flows aligned with growth strategy.
- Reduced form completion time by 50% through usability testing and flow restructuring
- Increased product discovery speed by 35% after 30+ research sessions.
- Improved mobile accessibility scores by 18% via WCAG-aligned design.

Felbeth Web3 EdTech — Product Designer

Mar 2024 – May 2025 | Remote

- Led landing page redesign increasing course enrollment by 15%.
- Reduced page load time by 38% through performance optimization.
- Designed responsive interfaces serving 1,800+ active users.
- Contributed to visual system decisions supporting 2 product launches.

AmonCraft — Agency Product Designer

Nov 2022 – Nov 2023 | Remote

- Designed 20+ enterprise prototypes improving client satisfaction by 25%.
- Built cross-platform mobile applications using Flutter, reducing development time by 20%.
- Partnered with engineering to deliver scalable product solutions.
- Led design reviews and mentored junior designers.

Independent Product Designer | Freelance

2020 – 2023 | Remote

- Delivered 15+ web products from concept to launch across SaaS and commerce.
- Advised founders on UX strategy and scalable design systems.
- Served 20+ global clients with mobile-first, accessibility-driven solutions.
